

Rohan Mehta

Skills

Python, JavaScript, React, Node.js, Kubernetes, Terraform, GraphQL, Rust, Kafka, Elasticsearch

Projects

TaskFlow - A to-do list web app built with React and Node.js. Users can create, edit, and delete tasks, with data stored in a simple JSON file on the server. Deployed the frontend on Vercel for a class project.

WeatherNow - A weather lookup app using the OpenWeatherMap API and vanilla JavaScript, styled with basic CSS.

Education

B.Tech Computer Science, Delhi Technical University, 2022-2026
