

Sneha Iyer

Skills

Python, Backend Development, Cloud Computing, Databases

Projects

ImageResize Service - Built a serverless function that automatically resizes images uploaded to a cloud storage bucket, triggered on every new upload, with results written to a managed NoSQL document store.

ChatBot API - Built a REST API that stores conversation history in a relational table with foreign key constraints linking messages to user sessions.

Education

B.Sc Computer Science, Mumbai University, 2022-2026
