

PROJECTS

Open Source Test Automation Framework

Developed a test automation framework with a focus on ease of use and reliability.
<https://github.com/hazelclark/test-framework>

Healthcare Compliance Testing Suite

Implemented a testing suite for healthcare software compliance, improving audit readiness.
<https://github.com/hazelclark/healthcare-testing>

KEY ACHIEVEMENTS

- ★ **Reduced Testing Cycle Time**
Developed a streamlined testing cycle, cutting 30% off previous release times, improving agility and release frequency.
- ⚡ **Awarded Employee of the Year**
Recognized for outstanding contributions to team efficiency and software quality, leading to improved client satisfaction.
- ☆ **Enhanced Defect Identification**
Implemented a defect tracking system, increasing defect identification by 25% and improving overall software quality.

SUMMARY

Over 8 years of extensive experience in software testing, leading teams through complex testing scenarios. Proven expertise in automated testing using Selenium, with significant success in reducing defect occurrence by 30%. Highly analytical and detail-oriented, excelling in collaboration with development teams to enhance healthcare solutions' quality and security.

EXPERIENCE

Senior Software Tester 01/2025 - Present
HealthTech Innovations San Diego, CA

- Led the implementation of comprehensive testing frameworks, reducing critical defects by 25% within the first six months.
- Collaborated with developers and stakeholders to streamline testing processes, improving test cycle efficiency by 40%.
- Mentored and guided a team of 4 junior testers, fostering an environment of continuous learning and improvement.
- Conducted automated and manual testing using Selenium and JMeter, ensuring industry-standard quality and performance.
- Enhanced test reporting processes, delivering clear, actionable insights to stakeholders, which increased decision-making speed by 50%.

Lead QA Engineer 05/2020 - 12/2024
MedSoft Solutions Los Angeles, CA

- Developed and deployed automated testing tools, resulting in a 30% reduction in testing time for new software versions.
- Managed cross-functional teams to perform testing activities, enhancing team communication and collaboration.
- Introduced Agile methodologies to the QA process, leading to a 20% improvement in project delivery timelines.
- Conducted deep-dive analysis on defects, providing the development team with detailed findings that improved software stability.

QA Analyst 06/2017 - 04/2020
Digital Health Corp San Diego, CA

- Executed rigorous testing protocols, increasing software reliability and reducing support tickets by 15% year-over-year.
- Engaged in code reviews, offering suggestions that improved code quality and decreased bugs by 10%.
- Managed test case documentation and validation, utilizing JIRA to track project progress and results effectively.
- Collaborated with product managers to ensure features met client requirements, strengthening customer satisfaction ratings.

EDUCATION

Bachelor of Science in Computer Science 01/2013 - 01/2017
University of California, San Diego San Diego, CA
