

LEAH TORRES

Lead Software Tester | Agile | Automation
+1-(234)-555-1234 • Email • linkedin.com • San Antonio, Texas

Summary

Lead Software Tester with over 8 years of experience in automation and Agile environments. Proven track record of enhancing team performance and delivering top-caliber, reliable software. Successfully led testing teams and achieved 99% defect detection rate in large scale projects.

Skills

Automated Testing • Selenium WebDriver • JUnit • Agile/Scrum • Defect Tracking • CI/CD Integration

Experience

TechCorp Innovations

Austin, Texas

Lead Software Tester

01/2024 - Present

- Implemented a robust test automation framework using Selenium, reducing manual testing efforts by 60%.
- Led a team of 8 testers to achieve a 99% defect detection rate before software releases.
- Collaborated with cross-functional teams to integrate testing into CI/CD pipeline, improving software deployment speed by 40%.
- Conducted user acceptance testing, resulting in positive feedback from 95% of stakeholders.
- Mentored junior testers, enhancing team expertise and accomplishing a 20% increase in team efficiency.

MediTech Solutions

San Antonio, Texas

Senior Software Tester

01/2021 - 12/2023

- Developed automated test scripts with JUnit, improving test coverage by 30%.
- Coordinated with product teams to resolve 85% of critical defects within 48 hours of discovery.
- Designed and implemented regression tests, enhancing product stability and reducing post-deployment issues by 15%.
- Facilitated Agile meetings, fostering a collaborative environment and enhancing team productivity.

HealthTecha Inc.

Austin, Texas

Software Tester

06/2018 - 12/2020

- Executed functional and integration testing, leading to a 25% improvement in product quality.
- Identified and reported 500+ software defects, significantly enhancing software reliability.
- Conducted peer reviews, providing critical insights and improving team documentation practices.
- Collaborated with designers and developers, enhancing communication and reducing errors by 10%.

Education

The University of Texas at San Antonio

San Antonio, Texas

Bachelor of Science in Computer Science

01/2015 - 01/2018

Projects

Open Source Healthcare Test Suite

Developed a comprehensive test suite that identified critical healthcare software defects. GitHub: <https://github.com/leah-torres/healthcare-test-suite>

Automated Regression Testing Framework

Created an open-source framework for automated regression testing, streamlining testing processes. GitHub: <https://github.com/leah-torres/regression-testing>

Key Achievements

Defect Detection Efficiency Award

Achieved a 99% defect detection efficiency rating, significantly improving project delivery quality in 2025.

Team Leadership Excellence

Successfully managed a team of testers, resulting in a 30% increase in test case execution speed in 2024.

Automation Initiative Champion

Implemented test automation strategies that reduced manual testing efforts by 60% within a single project in 2023.

Interests

Healthcare Technology

Deep interest in improving healthcare through cutting-edge technology and innovative software solutions.
